

Modulift®

working between the hook and the load

Spreader Beam

The Modular Spreader Beam configuration and interchangeable components enable Modulift Spreader beams to be reused over many lifts. Designed by our engineering experts and manufactured in our own specialist facilities; the Modulift range are the leading Modular Spreader Beams on the market. These range from small sizes such as the MOD6 (6 ton) up to large sizes such as the MOD600 (600 ton).

MOD Spreader Beam

Spreader Frames and Lifting Frames are recommended for loads that have more than two lifting points; they can also be the ideal lifting equipment for when headroom is limited. Modulift offer several types of Spreader Frames and Lifting Frames for Multi-Point Lifts; please see below for further details of our Spreader Frames and Lifting Frames. Ranges from a CMOD6 (6 ton) to a CMOD250 (250 ton)
